Kristina Cornell Receives Rave Reviews and Releases Debut Album

Kristina Cornell's debut release from **Lofton Creek Records** dropped on Tuesday, but leading industry professionals are already saying great things about this roots-rocking country artist.

After the success of *Little Red Balloons*, the new single hitting stations is the pounding female anthem title track, *It's a Girl Thing*, which is co-written by Cornell. **Robert K. Oermann** of Music Row Magazine says, "*(It's a Girl Thing)* Very Snappy! The band cooks with gas, and the rollicking gal-power lyric is a blast. I'd program this in a heartbeat."

Her raw, real and fresh approach penetrates the soul, pounding Kristina's passionate country vocals onto the scene. With a personality that is so warm and easy going, her infectious laugh and witty humor are as unforgettable as her voice. Cornell, also, won over the Country Radio Broadcaster's Board. Executive Director **Ed Salamon** stated, "Kristina Cornell performed during the meeting of the Country Radio Broadcaster's Board and CRS-39 Agenda Committee and created a real buzz with that very tough audience. She's already had success in the Pittsburgh area (where we are both from) and I am rooting that the rest of the country will discover her soon."

Kristina teamed with singer, songwriter and producer **Dave Gibson** of the legendary **Gibson/Miller Band** to guide her debut album. **It's a Girl Thing** found Kristina collaborating with a successful round of songwriters, penning six songs on the release. Her soul filled approach and staggering diversity allows Kristina to open up on her emotional ballads like *Little Red Balloons* and *Whenever It Rains* and let loose on energy packed tracks such as *It's a Girl Thing* and *Real Man*.
