Orleans is "Still Havin' Fun" Releasing Their Final Album with Co-Founder John Hall

Once deemed as the best unrecorded band in the U.S. by the Rolling Stone, Orleans continues to pack houses re-connecting with old and new fans after 35 years in the industry, 14 albums, multiple hits and seven million records sold. This latest collaboration, **We're Still Havin' Fun**, recorded live in

Pittsburg, MA lives up to its name and was the last album to feature founding member John Hall who won a successful congressional race and is now in Washington. **We're Still Havin' Fun** is a vibrant production that only a live CD can offer.

Orleans was founded when the Hoppen Brothers, Larry and Lance, connected with John Hall and now deceased drummer Wells Kelly in Woodstock, NY. The current line up includes Larry and Lance alongside their younger brother Lane on keyboards and vocals. Rounding out the group is Dennis Amero, who filled in for Hall from 1977-1984, and on drums is the former Elton John band member from 1984-1998, Charlie Morgan. Recently, *Still the One* ranked number 21 of "All Time Soft Rock Songs" on VH1.
